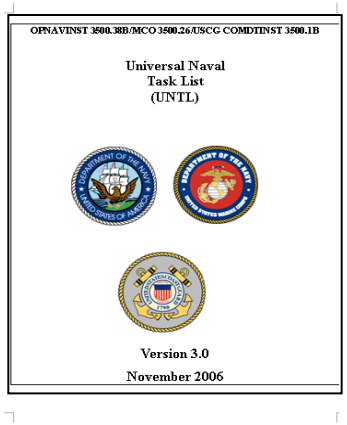
Slidedeck Overview

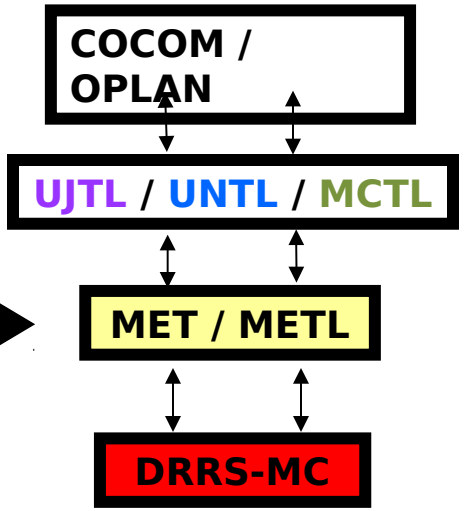
- **Key Terms, MCTL and the Universal Naval Task List**
- **MCTL Organization**
- **MCTL: The "Dictionary of Support" to METL Development**
- **CD&I *MCO 3500.110 METL Development*, Policy Alignment and Integration**
- **METL Stakeholders and Development Process**
- **MCTIMS Taskmaster Module and DRRS-MC ADS Systems View**
- **Building METs/METLs**
- **MCTL/METL Support to USMC Institution, Linkages and Review Process**
- **What is a MET/METL? Example and T&R Manual Association**
- **Installation METL and Readiness Reporting**
- **MCTL/METL Support to Current/Ongoing Initiatives**
- **MCCDC CD&I MCTL Website and Sharepoint Info**

Key Terms

- **MCTL: Marine Corps Task List**
  - Standardized “DICTIONARY” defining common USMC capabilities as “Tasks”
  - Provides the building blocks for METL development
  - MARADMIN 177/08 (141508Z MAR 08) “GUIDANCE AND POLICY FOR MARINE CORPS TASK LIST (MCTL) DEVELOPMENT, REVIEW, APPROVAL AND PUBLICATION”
- **MET: Mission Essential Task**
  - A single MCT determined by a reporting unit or installation considered “essential” to mission accomplishment and listed on their METL
  - Has associated proficiency standards aligned or linked to COI T&R Manuals (units) or DoDI Benchmarks Installation Title 10 requirements
- **METL: Mission Essential Task List**
  - The list of “essential” critical, discrete, externally-focused tasks that directly enables the execution of the organizational mission
  - Core METLs capture the tasks for which standing organizations were designed, and are standardized for each unit type
- **E-coded Event**
  - An “evaluated” collective training event that is a critical component of a mission essential task (MET), or a key indicators of a unit’s readiness. These are designated in the T&R Manual for a type of reporting unit
- **Reporting Unit: A unit with a registered Unit Identification Code (UIC) that reports into DRRS-MC**

MCTL – Chapter 4 of UNTL





- Jan 07 – United States Navy / United States Marine Corps / United States Coast Guard signed and released OPNAVINST 3500.38B/ **MCO 3500.26A**/ USCG COMDTINST 3500.1B, UNTL 3.0/ MCTL 1.0, posted on usmc.mil, Marine Corps Publications Electronic Library on-line, SSIC 03000, Operations and Readiness.
- 2013 – **UNTL**/**MCTL** "Policy" revision and Re-staffing initiative

MCTL Task Organization

Standardized "DICTIONARY" defining common USMC capabilities

Divided into Six Warfighting Functions

1. **Maneuver**
2. **Intelligence**
3. **Fires**
4. **Logistics**
5. **Command and Con**
6. **Force Protection**

Designed Capabilities of a USMC Unit

or

Functional Support Capabilities of an Installation, Base, Station

Contains Task Title, Task Definition, Doctrinal References and Suggested Measures

EXAMPLE Marine Corps Task

Task Title: **MCT 2.1 Plan and Direct Intelligence Operations**

Definition: To assist tactical Commanders in determining and prioritizing their intelligence requirements (IR), to enable them to plan and direct intelligence, counterintelligence, and reconnaissance operations to satisfy these requirements. This task includes identifying, validating, and prioritizing IRs; planning and integrating collection, production, and dissemination efforts; issuing the necessary orders, requests, and tasking to the appropriate intelligence organizations; and conducting continuous supervision to ensure effective and responsive intelligence support to current and future operations.

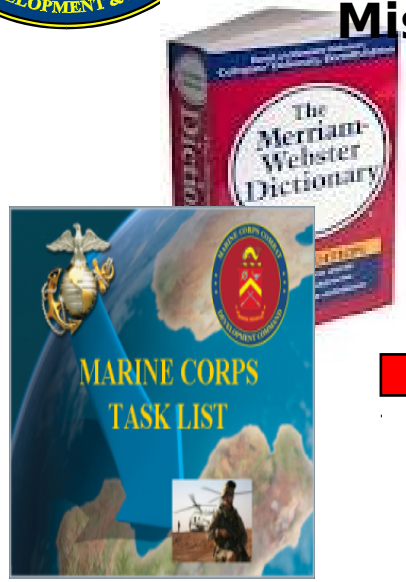
Doctrinal References: **(JP 2-0, 2-01, 2-01.1, 2-01.3, MCDP 2, MCWP 2-1, 2-2, NDP 2, NWP 2-01, NTA 2.1)**

Suggested Measures:

M1	Days	To disseminate initial and subsequent PIRs to all units.
M2	Hours	Between updates of PIRs by Plans Cell.
M3	Days	In advance of collection, intelligence requirements identified.
M4	Percent	Of PIRs identified during execution, not previously identified.
M5	Hours	After collection, priority intelligence requirements (PIR) disseminated to subordinate units.
M6	Percent	Of total PIRs identified during execution (Execution plus Crisis Action Planning).

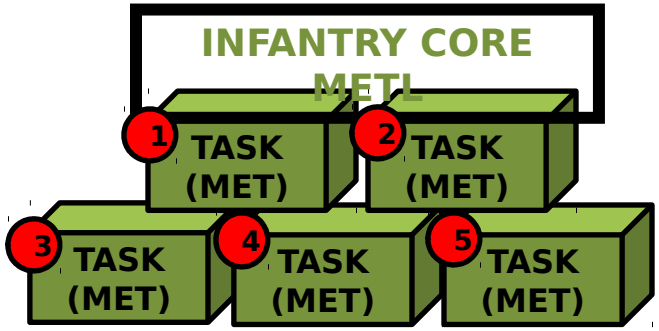
MCTL Supports METL Development

Provides the "Building Blocks" for Mission Essential Task List (METL) Development



USMC TASKS:

1.	MCT 1.12.1	Conduct Amphibious OPS
2.	MCT 1.6.1	Conduct Offensive OPS
3.	MCT 1.6.4	Conduct Defensive OPS
4.	MCT 1.13 (IW)	Conduct Irregular Warfare
5.	MCT 1.13.2	Conduct NEO
5.	MCT 1.6.7	Conduct MOUT
6.	MCT 1.14	Conduct Stability OPS
7.	MCT 1.18.1	Support COIN OPS
8.	MCT 1.15.1.2	Facilitate Foreign HA



INFANTRY CORE METs:

1.	MCT 1.12.1	Conduct Amphibious OPS
2.	MCT 1.6.1	Conduct Offensive OPS
3.	MCT 1.6.4	Conduct Defensive OPS
4.	MCT 1.13	Conduct Irregular Warfare (IW)
5.	MCT 1.6.7	Conduct MOUT

1. Situation

a. Reference (a) established the Department of Defense, Defense Readiness Reporting System (DRRS).

b. Reference (b) provided guidance on responsibilities and actions to support the Defense Readiness Reporting System (DRRS) and further clarified implementation issues surrounding Mission Essential Task (MET) assessments and DRRS reporting requirements.

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

HQMC CD&I
MCO 3500.110 METL Development, Review, Approval, Publication and Maintenance
(15 Jul 2011)

- USMC units/installations report mission readiness in DRRS-MC using the MET/METL construct drawing from tasks in **MCTL**.
  (PP&O MCO 3000.13 Readiness Reporting SOP, 2010 Aug - **Revision 2013**)

- CD&I's MCO 3500.110, Codifies and Validates:
  - Process owners, roles and responsibilities
  - Synchronization and integration of METL development with Advocates
  - Provides a common, cohesive process and methodology for METL development
  - Establishes a "central repository" for MET/METL data (**MCTIMS/Taskmaster Module DB**)

MCTL/METL MCOs and DC, CD&I Directives

MCO 3500.110 Policy on METL Development Supports and Aligns with other DC, CD&I Directives

Welcome to the Marine Corps Task Master Database
Task Master is the repository of Marine Corps Task Sets as well as the associated Marine Corps Tasks (MCTs) which are used as the basis for a Unit's Mission Essential Task List (METL). This application enables the Marine Corps to standardize readiness requirements and maintain a gold source record for Task Sets and MCTs. Within Task Master, users will have the ability to view the Marine Corps Task List (MCTL), Unit Task Sets, and formatted reports highlighting the relationships between Task Master, Training & Readiness (T&R) Manual, and Unit Training Module (UTM).
A Task Set will include one or more MCTs from the MCTL, and the standards criterion, and measures for each associated Mission Essential Task (MET). Training Standards associated with a MET will be linked to specific T&R events identified in appropriate T&R Manuals. The MCTL is a standardized dictionary defining common USMC tasks. Task Master provides users of T&R Manual and UTM the ability to easily search the MCTL for METs. Task Master enables TECOM to quickly review and respond to requests from Unit Commanders for additions to the MCTL.

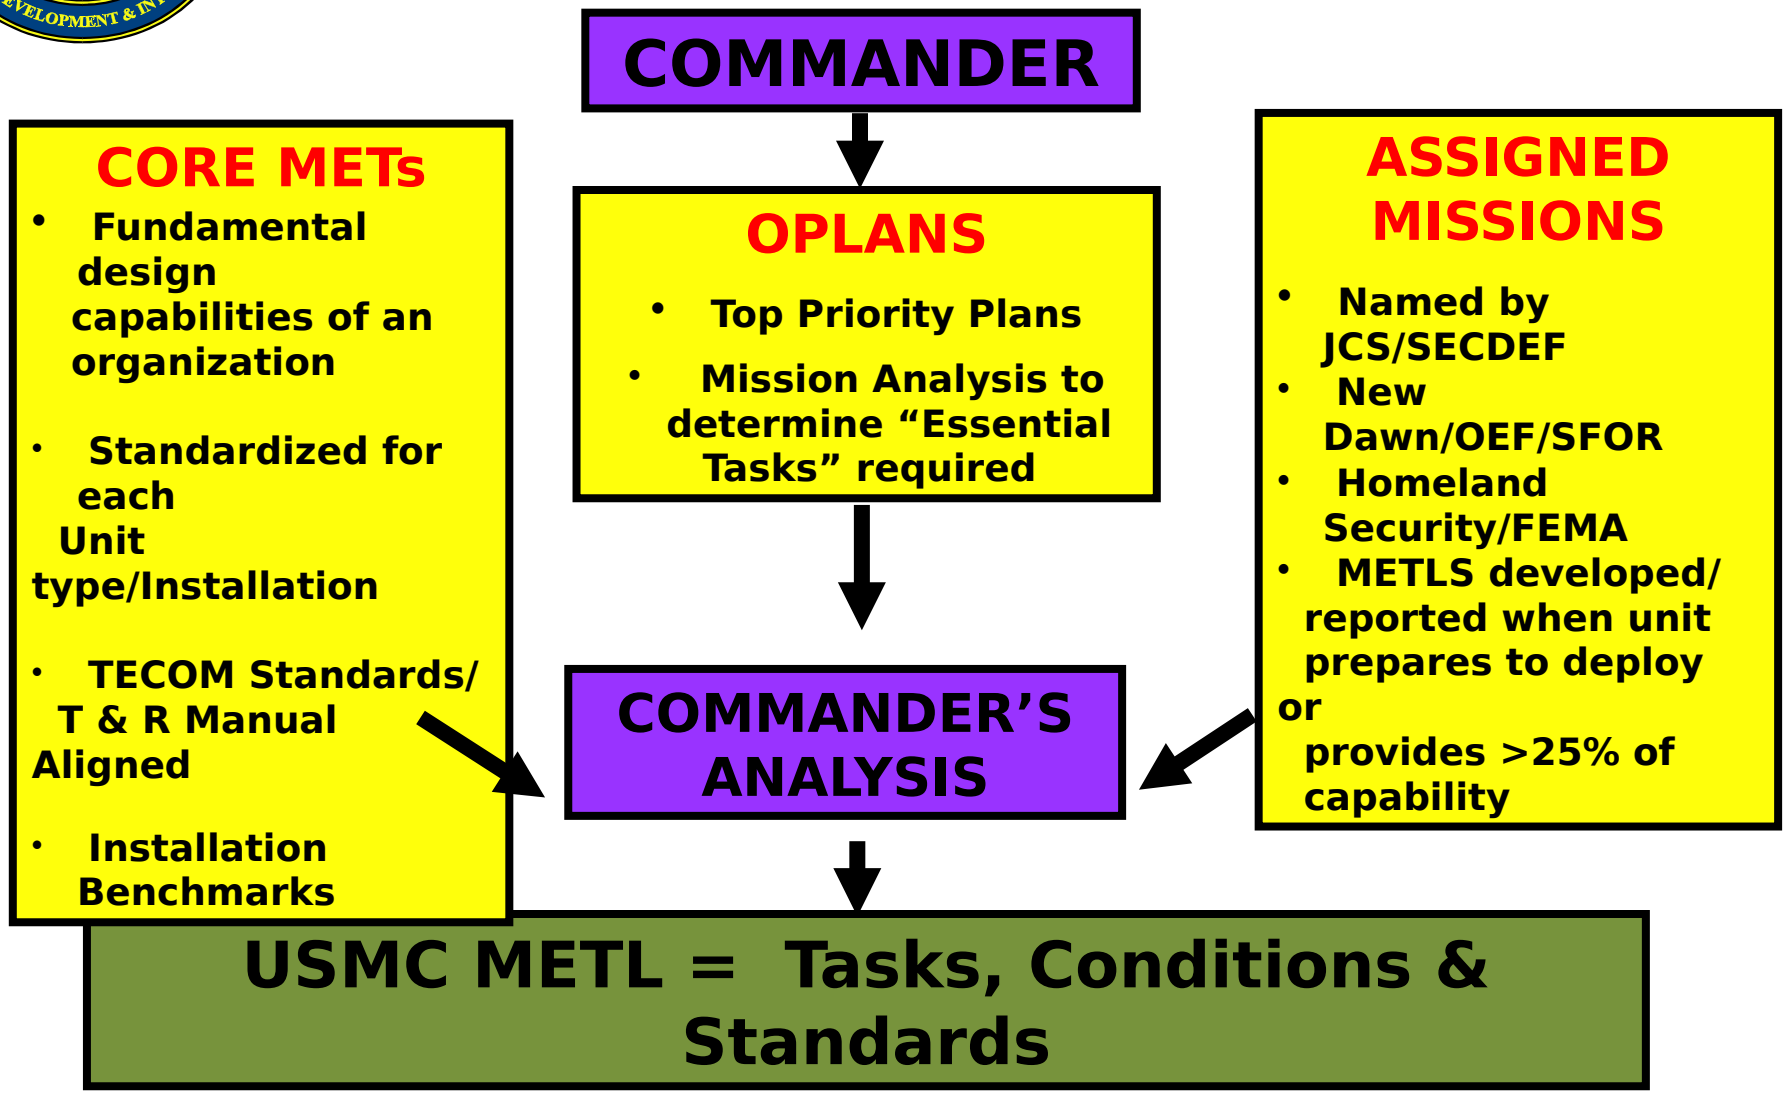
USMC METL DEVELOPMENT

All DRRS-MC reporting organizations develop METLs:



COMMANDER
OPLANS
• Top Priority Plans
• Mission Analysis to determine "Essential Tasks" required
CORE METs
• Fundamental design capabilities of an organization
• Standardized for each Unit type/Installation
• TECOM Standards/ T & R Manual Aligned
• Installation Benchmarks
ASSIGNED MISSIONS
• Named by JCS/SECDEF
• New Dawn/OEF/SFOR
• Homeland Security/FEMA
• METLS developed/ reported when unit prepares to deploy or provides >25% of capability
COMMANDER'S ANALYSIS
USMC METL = Tasks, Conditions & Standards

METL Standardization and Alignment

- CD&I, TECOM (MAGTF TS) and MARFORCOM conduct “Core” METL Standardization Development Workshops for all GCE, LCE, ACE units, and the Installations/Bases/Stations.

- 4 yr. effort to align METL Workshop products prior to COI T&R Manual Conferences ensuring METs are identified and linked to T&R Manuals.

- Established Core METLs are uploaded into the MCTIMS Taskmaster Module and DRRS-MC database for OPFOR unit and installation readiness reporting :

  - Core METLs are linked to a unit’s T&R Manual with E-coded or collective training events; and,

  - Define the unit’s Output “Standards” corresponding resource personnel and equipment, and training requirements, to ensure fielding of all warfighting capabilities are integrated across DOTMLPF.

Types of METs/METLs

- **Core** Mission Essential Tasks
  - Critical, discrete, externally-focused tasks that directly enable the execution of the organizational mission
  - Core METs capture the tasks for which standing organizations were designed, and are standardized for each unit type
- **Core Plus** Mission Essential Tasks
  - Core Plus Tasks have a lower probability of execution or are theater specific
  - Not included in unit readiness assessments
  - Units may elect to include core plus tasks in their METLs and associated training plans
- **Assigned Mission** Essential Tasks
  - Assessed when 25 percent or more of a unit deploys or prepares to deploy in support of an operation.
  - Based on Core METs, Core Plus METs, Mission templates, and deployment guidance

MET and METL Workshops

Select the MCTs as METs and Develop your COI METL (20% of the WG's time)

An accurate accounting of mission critical tasks your organization does for the fight

Select your Conditions (<10% of the WG's time)

A broad brush canvas of the environment you expect to do the task in

Establish your Standards (>70% of the WG's time)

Meaningful, relevant, measurable metrics that shape the evaluation of the COI's readiness to execute a critical task or unit mission

Mission Essential Task (MET)

- A Mission Essential Task (MET) is an activity (task) deemed **“essential” or “critical”** to mission accomplishment.
- A MET is **absolutely necessary; indispensable**.
- Tasks are selected from the **MCTL** (USMC) or **UJTL** (COCOM).

Essential

Absolutely necessary

Indispensable

A “Mission-Stopper”

Task Conditions

- Conditions are derived from the **UJTL** for **ALL** Services

- Conditions describe the variable of the OP environment or situation broken down by Physical, Military or Civil, in which a unit, system, or individual is expected to operate that may affect performance.

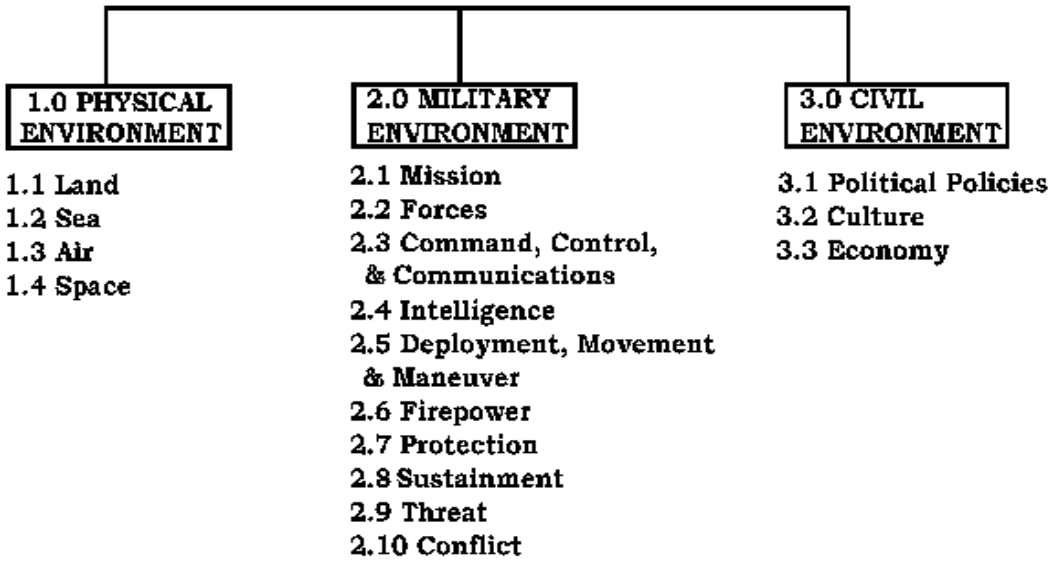
- If the Condition does not af perform the task, it may not be relev

MCT 4.5.6 Conduct Mass Casualty Operations

Conditions:

C 2.1.5.1 Lead Time: Minimal (Minutes/Hours)

C 2.8.3.1 Pipeline Responsiveness: Robust



Types of MET Standards

- **<u>Output</u> (performance) standards:**
  - Quantify the outputs provided to the gaining Force Commander
  - Focus on the results rather than the process, inputs, or resources applied
- **<u>Resource</u> standards:**
  - Manpower and equipment required to produce the outputs for the task
  - Link unit T/O and T/E to corresponding METs
- **<u>Training</u> standards:**
  - Training required to produce the outputs for the task
  - Links DRRS-MC assessment to T&R standards
  - Links “E” coded events to the MET
  - Minimizes subjectivity
  - Identify exercises and required certification events
- **<u>Subordinate</u>/supporting unit standards**
  - Tasks performed by other units that are required to produce the outputs for the task
  - Required for intermediate level commands

MET Standards Metrics

- The minimum acceptable resource, personnel, equipment, proficiency, training, or output level required to correctly perform the task
  - Task: **MCT 4.5.6 Conduct Mass Casualty Operations**
    - Of all other augmentation Bi
    - NEC/NOI
    - Per
    - 80

A Standard

What aspect is being

Scale – What yardstick will we measure with?

Criterion – What is the minimum acceptable level or performance?

- Tasks should have multiple standards

What Performance is a “GO”?

Measurable Quantifiable
Relevant

- **OPFOR MET/METL Example**
- **OAG Adjudication**
- **MET Alignment to T&R Manuals**
- **Installation METL**
- **MCT/METs/METLs Support to Initiatives**

MEF Core Mission Essential Tasks (EXAMPLE)

MCT 1.1.2 Provide Task-Organized Forces
MCT 1.3.1 Conduct Maneuver
MCT 1.12.1 Conduct Amphibious Ops
MCT 1.14 Conduct Stability Ops
MCT 3 Employ Firepower
MCT 1.12.3 Conduct Prepositioning Ops
MCT 5.5.2 Conduct Joint and Combined Ops

MCT 1.14 Conduct Stability Operations

MEF - EXAMPLE

Conditions:

- C 3.1.2.2 Foreign Government Stability: Low (unpredictable)
- C 3.3.2 Refugee Impact: Severe, Moderate, Negligible
- C 3.1.3.4 Restraints on Action: Moderate

Output Standards:

- Y/N Capable of securing designated critical infrastructure
- Y/N Capable of integrating operations with governmental and non-governmental agencies
- Y/N Able to provide local populace security and humanitarian needs
- Y/N Capable of executing a phased priority of restoration of critical services and infrastructure with utilities , water, food, supplies, transportation, medical services
- Y/N Capable of improving the capacity of the partner nation to secure essential services

Observation Requirements:

- ≥ 1 MAGTF stability operations planning/training/operation event for CE and representative subordinate elements performed within the last 24 months

Subordinate Unit Standards:

- Y/N **MEF CE** reports DRRS Y/Q for the following tasks:
  - MCT 1.2 Move Forces
  - MCT 1.14.5 Plan and Direct Stability Operations
  - MCT 1.15 Conduct Civil-Military Operations (CMO)
  - MCT 2.1 Plan and Direct Intelligence Operations
  - MCT 3.1 Conduct Targeting (Using D3A in Concert w/Joint Targeting Cycle)
  - MCT 4.11 Plan and Direct Logistics Ops
  - MCT 5.5.1 Integrate and Operate with Joint, Interagency, Intergovernmental and Multinational (JIIM) Organizations
  - MCT 5.7 Exercise C2 of Air and Ground Forces
- Y/N **DIV** reports DRRS Y/Q for the following tasks:
  - MCT 1.1.2 Provide Task Organized Forces
  - MCT 1.6.1 Conduct Offensive Operations
  - MCT 1.6.4 Conduct Defensive Operations
  - MCT 1.12.1 Conduct Amphibious Operations
  - MCT 1.14 Conduct Stability Operations
  - MCT 5.5.1 Integrate and Operate with Joint, Interagency, Intergovernmental and Multinational (JIIM) Organizations
- Y/N **MAW** reports DRRS Y/Q for the following tasks:
  - MCT 1.3.4 Conduct Assault Support Ops
  - MCT 2.2.5.2 Conduct Air Reconnaissance
  - MCT 3.2.3.1 Conduct Offensive Air Support
  - MCT 5.3.2.7 Conduct Tactical Air Command Center Ops
  - MCT 5.3.5 Control Aircraft and Missiles
- Y/N **MLG** reports DRRS Y/Q for the following tasks:
  - MCT 1.1.2 Provide Task Organized Forces
  - MCT 1.1.2.2.1 Provide HQ for a Logistics Combat Element (LCE)
  - MCT 4.1 Conduct Supply Operations
  - MCT 4.2 Conduct Maintenance Operations
  - MCT 4.3 Conduct Transportation Operations
  - MCT 4.4 Conduct General Engineering Operations
  - MCT 4.5 Provide Health Services
  - MCT 4.6 Provide Services (Nonmateriel and Support Activities)
- Y/N **MHG** reports DRRS Y/Q for the following tasks:
  - MCT 1.1 Provide Forces
  - MCT 2.1.2 Conduct Intelligence Support
  - MCT 5.1.1 Establish and Maintain Communications
  - MCT 5.3.1.7.1 Establish Supporting Arms Liaison to Joint & Combined Forces
  - MCT 6.6 Conduct Law & Order Operations

EXAMPLE: MCT Additions presented for OAG Approval (GCE METL Review – Artillery COI)

ISSUE

- Description
  - CMC approved FSRG recommendation to reorganize Artillery Cannon and Rocket units.
  - **METs** for Arty REG, Arty REG HQ, Arty Cannon BN, Arty Cannon BN HQ, Mission Statements (TFSD) and Artillery T&R changes required significant changes.
  - Recommended changes received coordination concurrence by BGen. Berger (PP&O)

BACKGROUND

- Issue Background
  - Artillery COI have developed **NEW MCTs** for Split Battery and Rocket Platoon Ops
    - MCT 3.2.4.2 Conduct Indirect Fires
    - **MCT 3.2.4.2.1 Conduct Artillery Cannon Split Battery Ops (NEW)**
    - **MCT 3.2.4.2.2 Conduct Artillery Rocket Platoon Ops (NEW)**
  - Provisional Infantry Ops and Route Security
    - MCT 1.6.1 Conduct Offensive Ops
    - MCT 1.6.4 Conduct Defensive Ops
    - **MCT 1.6.X Conduct Provisional Infantry Ops (NEW)**
    - **MCT 1.6.X.X Conduct Route Security (Sub to Provisional Ops)**

DESIRED ENDSTATE

- Describe the Desired Endstate
  - CD&I/CDD required GCE COI to review these recommended **NEW** tasks for inclusion in MCTL, inclusion in MCTIMS/Taskmaster ensuring alignment to T&R Manual and for use in relevant METL development for the Artillery units and DRRS-MC readiness reporting implementation.
  - CD&I/CDD requires quantifiable measurable metrics and standards associated to the **NEW** tasks.

RECOMMENDATION

- GCE WG Recommended Deliverables
- **DELIVERABLE:**
  - TIMELINE: Year-long Initiative
  - LEAD: LtCol. Andy Tate
    Artillery/JTAC OccField Sponsor
    GCE Branch, PP&O, HQMC
  - SUSPENSE: 20XX June

GCE METL CONFERENCE ENDORSEMENT: Recommend review by Ground Board/IOAG to approve NEW task recommendations.

Example - Core MET to T&R Linkage

Infantry Bn Core METL

- **Training Standards for MCT 1.6.1 Conduct Offensive Operations**
- **Group A: 100% Bn trained in following events:**
  - INF-OFF-7111 Conduct an Attack
  - INF-FSPT-7302 Conduct Fire Support Coordination
- **Group B: Y/N Each company trained to standard in one of the following**
  - INF-OFF-6111 Conduct an attack
  - INF-OFF-6112 Conduct a night attack
  - INF-OFF-6113 Conduct a raid
  - INF-OFF-6114 Conduct a motorized attack
  - INF-OFF-6115 Conduct tank-infantry integration
  - INF-OFF-6116 Conduct a mechanized attack
  - INF-OFF-6117 Conduct a helicopter-borne assault
  - INF-MOUT-6801 Conduct Urban operations

Infantry T&R Manual (NAVMC 3500.44 (draft))

- **E-Coded events for MCT 1.6.1 Conduct Offensive Operations**
  - INF-OFF-7111 Conduct an Attack
  - INF-FSPT-7302 Conduct Fire Support Coordination
  - INF-OFF-6111 Conduct an Attack
  - INF-OFF-6112 Conduct a Night Attack
  - INF-OFF-6113 Conduct a Raid
  - INF-OFF-6114 Conduct a Motorized Attack
  - INF-OFF-6115 Conduct Tank-Infantry Integration
  - INF-OFF-6116 Conduct a Mechanized Attack
  - INF-OFF-6117 Conduct a Helicopter-Borne Attack
  - INF-MOUT-6801 Conduct Urban Operations

Installation METL Reporting

- 2005-2007: DoD and USMC DRRS Reporting Requirements for Installations
- 2008: Approved installation METs loaded into DRRS for MCIE/MCIW
- 2010: *MCO 3000.13 USMC Readiness Reporting SOP* –additional requirements
- 2011: MCICOM (IOC) and Installation Readiness Conference, NEW METL
- 2012: MCICOM (FOC) providing overview of Installation Reporting in DRRS-MC

MCICOM Challenges:

- Ensuring METs uniformly applicable/shaped to support OPFOR requirements.
- Capture/alignment of Installation MET resources to OPFOR.
- Methodology alignment of DoD DRRS OPFOR / DoDI Title X Installation requirements and reporting timeline synchronization.
- Range requirements: "Weighting" by type of Installation the range supports.
- Incorporate the "Pillars" of Mission Assurance into Installation readiness assessments.
  - Law Enforcement/Corrections
  - Emergency Management (IEM)
  - Fire & Emergency Services
  - AT / CBRN
  - Critical Infrastructure Protection (CIP)
  - Continuity of Operations (COOP)
  - Homeland Defense, Disaster and FEMA Integration
  - Access Control and Physical Security
  - Force Protection Coordination
  - CYBER Info Fusion/Sharing
  - Pandemic Health Awareness

Installation Core METs 2012

MCTL/METL Support to Ongoing Initiatives

Capability Portfolio Management (CPM)
Construct that evaluates USMC investment strategies against CMC prioritized requirements.

DC, CD&I
MC Force Development System (**EFDS** / **MCFDS** / **MCEIP** / **MCIECP**) Process:

- **MCTs** are used as "Data Points", w/other informational sources, in the JCIDS "**CBA** process". (MCCL / MGL / **SPD**)
- **MCTs** are used in linkage of "future" mission scenario-to-"Function/Activity" Areas-to Joint Capability Areas (JCAs).
- **MCTs** supports future CONOPS and provides baseline capabilities required to achieve desired outcomes for future military objectives and POM acquisition and procurement strategies.

DC, P&R
MC Strategic Health Assessment
(**MCSHA**):

MCTs-to-METs-to-METLs-to-DRRS-MC Readiness Reporting Assessments:

- Data provided will illustrate the **current** "Health of the Marine Corps" by "readiness pillars":

  High Quality People Capacity vs. Requirement
  Unit Readiness (METs/METLs) Infrastructure Sustainment
  Equipment Modernization

- Data provided will illustrate **current** Capabilities strengths/weaknesses/trends of unit and SE manpower/equipment/training
- Data will provide operational planners, trainers, and capability developers and POM strategists:
  - ✓A baseline for future acquisitions and program funding solutions.
  - ✓Aid in identifying sustainment, modernization, required resources and identified risks.

"It's not about the Money, it's ALL about the Money"
~ ~DC, CD&I

Mission
The MID serves as the coordinating authority for integrating all Marine Corps
and the operating forces, as related to: phases I and II of the Expeditionary Fo
and maintenance, the Deliberate and Urgent Needs Processes, and managem
List. Further, the MID leads all Continuous Process Improvement activities w
to include management of the EFDS High Impact Core Value Stream.

MISSION OF THE MCTL
MARINE CORPS TASK LIST
The Marine Corps Task List (MCTL) is the standardized, doctrinally based lexicon of Marine Corps Mission Essentia
Capabilities, and MC Unit and Installation readiness. MCTL supports warfighting by providing a common language for
development. MCTL 1.0, MCO 3500.26A, the published standard, resides as Ch 4 of OPNAVINST 3500.38, the Ur
sustainment through continual updating and modification to meet OPFOR readiness reporting requirements mand
downloadable from documents located in "Shared Documents" on this Site, and also available on the MCCDC We
supercedes all previously printed or electronic versions.
MCCDC CD&I intent is to ensure the MCTL is representative of all elements of the MAGTF and that the DRRS dat
immediate use by OPFORs, Installations, Bases and Stations.
